Principal: James Mousalimas

Grade Span: K - 12

About This School

The Juvenile Hall program uses an integrated, thematic approach to instruction. Lessons, assignments, and projects are centered on bi-monthly themes that bring continuity to the learning experience. Students complete grade appropriate, standards-based academic courses and work on basic skills to complete requirements or earn high school credits. Educational strategies are highly interactive, and are both process and product oriented in the classroom.

The program enables students to become productive members of the community by providing quality learning opportunities. Students develop an appreciation of self and others, individual talents, critical thinking and problem solving skills, workforce readiness, and complete a course of study resulting in a high school diploma, Certificate of Completion or GED.

The Court school program serves K-12 youth at Peterson Juvenile Hall, The Camp and Dorothy Biddick School. Peterson Hall and The Camp are located at the county juvenile detention center. Dorothy Biddick is located at the Mary Graham Children's Shelter.

Students who have been identified as needing special education services are provided supplementary services through two credentialed special education teachers and an aide who deliver instruction in the classroom or one-on-one outside of the classroom. Parents of Special Education students are involved in the IEP team meetings for his/her child.

2007-08 School Accountability Report Card Report (SARC)

The School Accountability Report Card (SARC), which is required by law to be published annually, contains information about the condition and performance of each California public school. More information about SARC requirements is available at the [SARC](#) Web site. For additional information about the school, parents and community members should contact the school principal or the district office.

I. Data and Access

DataQuest

[DataQuest](#) is an online data tool that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP]), test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2007-08)

This section provides information about the school's goals and programs.

Our mission as a school community is to educate and empower all students. We do this by serving the whole student in a positive learning environment so that all students will become lifelong learners and productive citizens.

The Juvenile Hall program maintains an academic focus and high expectations of students, staff and parents. All stakeholders participate in the support and education of each child. Staff is committed to high quality staff development, professional growth and serving the whole student. Students are provided quality curriculum, vocational educational opportunities and technology in a positive learning environment. They make positive contributions to their communities as students and graduates of the one. program. Students complete a course of study that enables them to have educational and career choices beyond high school.

The Concept of one. is the guiding philosophy of the San Joaquin County Office of Education (SJCOE) one. Program. one. stands for our desire to remind students that each individual is important and can make a difference in the world; we also want to make the point that it is when individuals join together, and work as one. miracles can occur.

We believe that...

- All kids can learn.
- Learning never ends.
- There is a need to celebrate diversity.
- Students bring with them their own reality.
- As educators, we should be eclectic and flexible.
- It is necessary to teach students to learn to learn.
- It is essential to recognize the basic worth in all people.
- There is a need to instill a sense of self-respect in our students.
- Each student should be given the opportunity to fully develop his/her human potential.
- There is a need to facilitate learning by drawing on students' individual strengths and learning styles.
- Each student has the right to a physically and emotionally safe environment that is conducive to learning.

Opportunities for Parental Involvement (School Year 2007-08)

This section provides information about opportunities for parents to become involved with school activities.

Peterson Juvenile Hall and Camp students are incarcerated and have limited visitation rights with their parents. Biddick students have been removed from abusive home environments and placed in protective care at the children's shelter. Parents of special education students are involved in the IEP team meetings for his/her child.

Each site provides agency support staff including counselors, probation and parole staff, therapist and other personnel to deal with the education rights and social/emotional needs of the students.

III. School Climate

School Safety Plan (School Year 2007-08)

This section provides information about the school's comprehensive safety plan.

Students of Peterson Juvenile Hall and the Camp are under the direct supervision of juvenile probation/court authorities. Staff members from these agencies are present in the classroom at all times. All staff, including the SJCOE teachers, follow the strict safety guidelines and supervision rules established and reviewed by these authorities.

Students at Dorothy Biddick are under the direct authority of the Mary Graham Children's Shelter/Social Services staff and the SJCOE teaching staff. A children's shelter staff member is always present in the classroom to provide additional supervision and support.

All SJCOE teachers are given the following Safety Plan at the beginning of each school year:

- **A crisis prevention checklist. The checklist is completed by site teachers and posted at each site. It includes the location of the fire extinguishers and first aid kits. The emergency evacuation plan is also included. This information is displayed at each site.**
- **Directions to follow in case of an emergency, crisis or injury**
- **A bomb threat checklist**
- **Listing of emergency phone numbers- posted at the site**
- **List of indicators of school violence**
- **List of situations that may lead to a volatile incident and/or atmosphere with students**
- **Tips for de-escalating a conflict**
- **Bullying information and tips for dealing with bullying**
- **Information and Ed Code references regarding dress code**
- **Suicide intervention information**
- **Resource numbers – posted at the site**

In addition, each school site has completed a comprehensive school safety plan in accordance with the Safe Schools policy, which includes a specific emergency operations plan. In compliance with SB 187, the plan is reviewed and revised for each school site. Every plan is aligned with the National Incident Management System (NIMS) and California Standardized Emergency Management Systems (SEMS) utilizing Incident Command System (ICS). Each document is prepared for the use of employees at a specific school sites in the event of an emergency, disaster, or crisis situation. The plan review, scheduling of drills, practice and safety trainings occurs annually. Schools are issued "grab and go" emergency packs in the event of an evacuation. The school nurse collaborates with parents/guardians of special needs students in order to provide medical emergency kits in accordance with their Individualized School Healthcare Plan (ISHP).

Suspensions and Expulsions

This table displays the rate of suspensions and expulsions (the total number of incidents divided by the total enrollment) at the school and district levels for the most recent three-year period.

***Explanation of Integrated Thematic Curriculum:**

The Juvenile Hall program uses an integrated, thematic curriculum, with subjects taught around a yearly theme delivered in four, two-month units. The integrated thematic curriculum is written each summer by a group of teachers. It is developed to address our Expected School wide Learning Results (ESLRs), to work toward the State of California, Department of Education Content Standards, and to address the philosophy of the program.

Subjects such as language arts and history are combined in an effort to make learning more relevant and to help students process and retain information more efficiently. Lessons, assignments, and projects are centered on themes that bring continuity to the learning experience.

What is taught at each school varies by student age, ability levels, the focus of the site, and by the creativity and special skills of the teachers at the specific sites.

Students have opportunities to individualize their instruction. Expectations are modified based on the abilities of each student. Teachers, parents, and students may conference with one another to determine what content areas they will emphasize in the work they do based upon the credits they need. However, final determination of credits awarded in a specific content area rests with the teacher and is based on evidence of student progress.

Teachers are supplied with a copy of the thematic units. Each unit contains at least four weeks of lesson plans, suggested materials, and project and field trip ideas. Other resources for curriculum are: Books, textbooks, novels, videos, and science and technology equipment to be checked out through our library/inventory system.

Throughout the program, high school credits are earned in many subject areas via direct instruction in math, reading, and writing, and physical education, but many subjects are taught in an integrated approach, with emphasis on one subject over a grading period. Over a period of a few years, students are able to earn credits in a variety of subjects.

The 2007-2008 theme was "The World Beyond Me." Units were as follows:

Unit 1 and 2: Physical Science

Unit 3: Government

Unit 4: Economics

The 2008-2009 theme is "Voices of America." Units are as follows:

Unit 1: American Democracy and the Election Process

Unit 2: The 1920s

Unit 3: Civil Rights

Unit 4: Contemporary American Society

VIII. School Finances

Expenditures Per Pupil and School Site Teacher Salaries (Fiscal Year 2006-07)

This table displays a comparison of the school's per pupil expenditures from unrestricted (basic) sources with other schools in the district and throughout the state, and a comparison of the average teacher salary at the school site with average teacher salaries at the district and state levels. Detailed information regarding school expenditures can be found at the [Current Expense of Education](#) Web page and teacher salaries can be found on the [Certificated Salaries and Benefits](#) Web page.

IX. Student Performance

California Standards Tests

The California Standards Tests (CSTs) show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades 2 through 11; science in grades 5, 8, and 9 through 11; and history-social science in grades 8, and 10 through 11. Student scores are reported as performance levels.

Detailed information regarding CST results for each grade and performance level, including the percent of students not tested, can be found on the [Standardized Testing and Reporting \(STAR\) Results](#) Web page.

CST Results for All Students - Three-Year Comparison

This table displays the percent of students achieving at the Proficient or Advanced level (meeting or exceeding the state standards).

Subject	School			District			State

History-Social Science	1	0	0	5	4	8	33	33	36

Note: Scores are not shown when the number of students tested is 10 or less because the number of students in this category is too small for statistical accuracy or privacy protection. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

CST Results by Student Group – Most Recent Year

This table displays the percent of students, by group, achieving at the Proficient or Advanced level (meeting or exceeding the state standards) for the most recent testing period.

In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

California High School Exit Examination

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade 10 results of this exam are also used to establish the percentages of students at three proficiency levels (not proficient, proficient, or advanced) in ELA and mathematics in order to compute Adequate Yearly Progress (AYP) designations as required by the federal NCLB Act of 2001. Detailed information regarding CAHSEE results can be found at the [CAHSEE](#) Web site.

X. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the [API](#) Web page.

API Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. These ranks are published when the Base API is released each March. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

API Rank	2005	2006	2007
Statewide		B	
Similar Schools		B	

"N/A" means a number is not applicable or not available due to missing data.

"*" means this API is calculated for a small school, defined as having between 11 and 99 valid Standardized Testing and Reporting (STAR) Program test scores included in the API. The API is asterisked if the school was small either in 2007 or 2008. APIs based on small numbers of students are less reliable and therefore should be carefully interpreted.

"A" means the school or subgroups scored at or above the statewide performance target of 800 in 2008.

"B" **3930195**

"C" means the school had significant demographic changes and will not have any growth or target information.

"D" means this is either an LEA, an Alternative Schools Accountability Model (ASAM) school, or a special education school. Target information is not applicable to LEAs, ASAM schools, or special education schools.

"E" indicates this school was an ASAM school in the 2007 Base API Report and has no target information even though the school is no longer an ASAM school.

API Changes by Student Group – Three-Year Comparison

This table displays by student group the actual API changes in points added or lost for the past three years, and the most recent API score. Note: "N/A" means that the student group is not numerically significant.

Group	Actual API Change			Growth API Score
	2005-06	2006-07	2007-08	2008
All Students at the School	B	N/A	N/A	N/A
African American		N/A	N/A	N/A
American Indian or Alaska Native		N/A	N/A	N/A
Asian		N/A	N/A	N/A
Filipino		N/A	N/A	N/A
Hispanic or Latino		N/A	N/A	N/A
Pacific Islander		N/A	N/A	N/A
White (not Hispanic)		N/A	N/A	N/A
Socioeconomically Disadvantaged		N/A	N/A	N/A
English Learners		N/A	N/A	N/A
Students with Disabilities		N/A	N/A	N/A

"N/A"

means a number is not applicable or not available due to missing data.

"**"

means this API is calculated for a small school, defined as having between 11 and 99 valid Standardized Testing and Reporting (STAR) Program test scores included in the API. The API is asterisked if the school was small either in 2007 or 2008. APIs based on small numbers of students are less reliable and therefore should be carefully interpreted.

"A"

means the school or subgroups scored at or above the statewide performance target of 800 in 2008.

"B"

means the school did not have a valid 2007 Base API and will not have any growth or target information.

"C"

means the school had significant demographic changes and will not have any growth or target information.

"D"

means this is either an LEA, an Alternative Schools Accountability Model (ASAM) school, or a special education school. Target information is not applicable to LEAs, ASAM schools, or special education schools.

"E"

indicates this school was an ASAM school in the 2007 Base API Report and has no target information even though the school is no longer an ASAM school.

Adequate Yearly Progress

The federal NCLB act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the [AYP](#) Web page.

AYP Overall and by Criteria (School Year 2007-08)

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

AYP Criteria	School	District
Overall	No	No
Participation Rate - English-Language Arts	No	No
Participation Rate - Mathematics	No	No
Percent Proficient - English-Language Arts	Yes	No
Percent Proficient - Mathematics	Yes	No
API	Yes	No
Graduation Rate	No	No

Federal Intervention Program (School Year 2008-09)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the [AYP](#) Web page.

Indicator	School	District
Program Improvement Status		In PI
First Year of Program Improvement		2005-2006
Year in Program Improvement		Year 3
Number of Schools Currently in Program Improvement	N/A	1
Percent of Schools Currently in Program Improvement	N/A	20.0

XI. School Completion and Postsecondary Preparation

Admission Requirements for California Public Universities

University of California

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements please visit the [University of California](#) Web site.

California State University

Admission requirements for the California State University (CSU) use three factors to determine eligibility. They are specific high school courses; grades in specified courses and test scores; and graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses utilize local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For general admissions requirements please visit the [California State University](#) Web site.

Dropout Rate and Graduation Rate

This table displays the school's one-year dropout rates and graduation rates for the most recent three-year period for which data is available. For comparison purposes, data are also provided at the district and state levels. Detailed information about dropout rates and graduation rates can be found on the [DataQuest](#) Web site.

Indicator	School			District			State		
	2004-05	2005-06	2006-07	2004-05	2005-06	2006-07	2004-05	2005-06	2006-07
Dropout Rate (1-year)			198.2	0.3	2.5	66.3	3.1	3.5	4.4
Graduation Rate	N/A	N/A	N/A	100.0	91.3	73.0	85.0	83.0	79.5

Completion of High School Graduation Requirements

Students in California public schools must pass both the English-language arts and mathematics portions of the California High School Exit Examination (CAHSEE) to receive a high school diploma. For students who began the 2007-08 school year in the 12th grade, as evidenced by that school year's October CBEDS enrollment, this table displays by student group the percent who met all state and local graduation requirements for grade 12 completion, including having passed both portions of the CAHSEE or received a local waiver or state exemption. Detailed information about the CAHSEE can be found at the [CAHSEE](#) Web page. Note: "N/A" means that the student group is not numerically significant.

Career Technical Education Programs (School Year 2007-08)

This section provides information about the degree to which pupils are prepared to enter the workforce, including a list of career technical education (CTE) programs offered at the school.

N/A

Career Technical Education Participation (School Year 2007-08)

This table displays information about participation in the school's CTE programs.

Measure	CTE Program Participation
Number of the school's pupils participating in CTE	N/A
Percent of the school's pupils completing a CTE program and earning a high school diploma	N/A
Percent of school's CTE courses sequenced or articulated between the school and institutions of postsecondary education	N/A

Courses for University of California and/or California State University Admission (School Year 2007-08)

This table displays, for the most recent year, two measures related to the school's courses that are required for University of California (UC) and/or California State University (CSU) admission. Detailed information about student enrollment, in and completion of, courses required for UC/CSU admission can be found at the [DataQuest](#) Web site.

UC/CSU Course Measure	Percent
Students Enrolled in Courses Required for UC/CSU Admission	N/A
Graduates Who Completed All Courses Required for UC/CSU Admission	N/A

XII. Instructional Planning and Scheduling

Professional Development

This section provides information on the annual number of school days dedicated to staff development for the most recent three-year period.

A comprehensive professional development plan is in place, which includes the following elements:

- Targeted standards in specific subject areas
- Standards maps in specific subject areas, outlining scope and sequence of what should be taught during each grading period
- Three Wednesday afternoon meetings per month, providing effective instructional strategies
- Annual professional development trainings in mathematics, language arts, science and social science, aligning instruction with content standards and new instructional strategies to teach the standards
- Subject area consultants are brought in several times per year to train and coach teachers
- Effective research-based practices targeting various populations (e.g., EL, males, various ethnic groups), which includes:
 - o AB 466 training (SRA Corrective Reading)
 - o AB 75 training
 - o SB472 training
 - o Great Valley Writing Project
 - o West Ed's Strategic Literacy Initiative
 - o ASCD Writing Trainings
 - o Writing trainings by Scott Evans, Professor, University of the Pacific
 - o West Ed's Math Matters
 - o Numeracy Project
 - o Differentiated instruction training to address the needs of all students (EL populations, males, various ethnic groups)
 - o Hampton Brown High Point or other EL curriculum training
 - o Technology Training
 - o Character Based Literacy Training
 - o Numeracy Project
 - o Fred Jones Training
 - o Economics/Government
 - o Physical Science
 - o Nutrition
 - o Algebra
 - o Geometry
 - o Life Science
 - o Why Try
- Research-based professional development opportunities in science, social science and other subject areas
- International Center for Leadership in Education consultation (Rigor, Relevance and Relationships)
- Northwestern Evaluation Association/Measures of Academic Progress
- Advanced Academics training
