

Student Events 2022-2023 Catalog

SAN JOAQUIN COUNTY
OFFICE OF EDUCATION

Message from the County Superintendent of Schools

Dr. Troy A. Brown

The San Joaquin County Office of Education (SJCOE) is proud to provide the community with the 2022-2023 Student Events Catalog. The outstanding activities and events on the following pages, such as the county and state spelling bees, mock trial competitions, and Science Olympiads, are designed to support student learning, encourage excellence, and recognize achievement among our county's third- through 12th-grade students.

The SJCOE invites all charter schools, parochial schools, private schools, public schools, and school districts located within San Joaquin County to take advantage of these activities and events that motivate student learning, promote teamwork, build school spirit, and celebrate education.

At the events, students represent their school and district at the county level, and winners of these events often move on to represent the county at the state and national levels. It's a wonderful opportunity for students to make connections with each other and teams from other schools, too. This leadership experience, along with the knowledge and skills that students gain from participation, further prepares them for success in college and their future careers.

Coordinated by the SJCOE's Educational Services Division, San Joaquin County academic events are fun and unique educational opportunities that challenge students to think in complex ways and apply the knowledge and skills they have acquired in an environment outside of the classroom. It is with great pleasure that the SJCOE hosts these countywide activities and events. However, their success would not be possible without:

- The support of our generous sponsors and our partnership with the San Joaquin County Office of Education Educational Foundation (SJCOEEF), county school districts, local businesses, and community organizations.
- The volunteers who graciously donate their time and share their expertise and talents.
- The educators and coaches who guide, train, and motivate students.
- The families who promote student participation and encourage students to reach their goals by developing their abilities and pursuing their interests.
- The students who proudly represent their school and district, challenge themselves and spend countless hours studying, researching, and practicing to improve and showcase their skills.
- The SJCOE wishes all students participating this year much success in their endeavors. We also encourage family members, school district administrators and personnel, high-school students, college students, retirees, and community partners to support our county's youth by being a part of the student-event experience this year as a volunteer or attendee.

Your partner in education,

A handwritten signature in blue ink that reads "Troy Brown". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Troy A. Brown, Ed.D.

H₂O Hackathon

Who: Middle School - College
When: November 5, 2022
Where: San Joaquin County Office of Education

The annual H₂O Hackathon is a unique event that taps in to the technical and problem solving skills of local students to help find solutions to the state's water issues. Cash prizes are awarded to the winning teams in each division: middle school, high school, and college.

No coding experience is necessary. Organized by the San Joaquin County Office of Education and iHub San Joaquin in partnership with Restore the Delta, A.G. Spanos Companies, Café Coop, Boss Systems, CodeStack, Stockton Unified School District, San Joaquin Delta College, and University of the Pacific, the H₂O Hackathon provides students an opportunity to implement real application of the science, engineering, and other skills they are learning in school. At the same time, the products that students create during the Hackathon could become valuable tools to help California find solutions to our water challenges.

esports

The Central California eSports League (CCEL) is providing additional opportunities for high school students to have their voices heard, obtain additional scholarships to college, and foster healthy digital citizenship through structured, competitive online video gaming. The CCEL is the only full-inclusion high school sports program currently being offered within the central valley. The CCEL is closely aligned with the California Interscholastic Federation (CIF) and has helped the CIF to explore the potential of eSports becoming officially

sanctioned in the future. Students must meet all of their district or school requirements for eligibility to play a high school sport.

High School Honors Concert

Saturday, January 14, 2023

San Joaquin Delta College
Atherton Auditorium
5151 Pacific Avenue, Stockton

The High School Honors Concert is an annual event featuring the county's most gifted and talented band, string orchestra, and choir students. It is co-sponsored by the San Joaquin County Office of Education, San Joaquin Delta College, and the San Joaquin County Music Educators' Association. Participation is open to all San Joaquin County high school band, orchestra, and choir students and their directors.

This concert has a list of distinguished guest conductors representing the very best music educators from colleges and universities from our area and annually attracts a large audience. The concert is open to the public, free of charge.

Student membership is by digital audition each fall. Requirements include scales and compulsories similar to that required by state-level ensembles. The fee schedule is \$35 per student and \$45 per school ensemble.

Please see your choir, orchestra, or band director for audition details or visit our website at sjhonors.org.

Mock Trial

February 2023

About the competition

Mock Trial has been a long-standing tradition in San Joaquin County. This high school event is sponsored by the San Joaquin County Bar Association, Humphreys College, Laurence Drivon School of Law, and the San Joaquin County Office of Education Educational Foundation, in cooperation with the Constitutional Rights Foundation.

In this true-to-life competition, high school teams debate fictitious cases before presiding superior court judges and scoring attorneys. Cases involve contemporary issues and pre-trial arguments on the amendments to the U.S. Constitution. Teams also may include courtroom artists and journalists.

In Mock Trial, students experience the excitement of working in teams, exchanging ideas, setting goals, and examining issues while interacting with positive role models from the community. By studying the case and preparing strategies and arguments for trial, students also develop presentation skills, analytic ability, and team cooperation.

Youth in Government Day

- Who:** Grades 9-12
When: October 27, 2022
Where: San Joaquin County Office of Education

The San Joaquin County Board of Supervisors, in partnership with San Joaquin County Office of Education, is providing an opportunity for youth to experience what it is like to work for San Joaquin County.

This one-day job-shadowing experience places high school students in a wide range of occupations throughout San Joaquin County. High school students are eligible and are chosen by teachers and counselors based on their interests and maturity.

SAN JOAQUIN COUNTY

25th Annual Spelling Bee

Grades 4-6 Monday, December 5, 2022

Grades 7-9 Wednesday, December 7, 2022

San Joaquin County Office of Education
Wentworth Education Center
2707 Transworld Drive, Stockton

The winner and runner-up in both divisions will represent San Joaquin County in the State Spelling Bee Championships in May 2023.

About the competition

In this written competition, every student participating spells the same list of words. When a student misses two words, that student is eliminated.

Who can participate?

The County Spelling Bee is open to students in grades 4-9 from all public or private San Joaquin County schools. Districts with five or more schools may send four students per division. Districts with two to four schools may send two students per division. Individual schools may send one student per division.

FabLab

What is engineering? In addition to being a part of the Next Generation Science Standards, engineering is a way that we solve problems, through systematically and iteratively recognizing problems, devising solutions and testing out those solutions. Also, engineering is fun!

The San Joaquin County Office of Education FabLab is a 7,000 square foot maker space where students use laser cutters, popsicle sticks, 3D printers, paint, sewing machines, competition robots made of metal, friendly robots that giggle, augmented reality computers, Legos and all sorts of other equipment to engineer solutions that no one has seen before.

Students design and build mars landers to float in the vertical wind tunnel, sew and wire wearable technology to track how far they travel, and create cardboard equipment to control Nintendo games that they program. Teachers can book a field trip as a capstone to a project or as a chance to learn a new topic of their choosing. Contact us for standards aligned, grade level specific field trip topics or for us to design an event just for your class.

Academic Decathlon

Saturday, February 4, 2023

**Speech, Interviews,
Super Quiz, and Awards**

Lathrop High School

647 Spartan Way

Lathrop

About the competition

The California Academic Decathlon Association encourages and rewards academic excellence by motivating and preparing students through cooperative and competitive events. The Decathlon is concerned with the achievements of all youth and concentrates its efforts on secondary students from public and private schools throughout California. The Decathlon embodies a partnership of businesses, foundations, and individuals in cooperation with the educational community and county offices of education.

A team consists of nine high school students from the same school. The nine-member team is comprised of three Honor, three Scholastic, and three Varsity students, as indicated by the following academic categories:

Category	GPA
Honor	3.80-4.00
Scholastic	3.20-3.799
Varsity	3.199 & below

The California Academic Decathlon is a program in which both public and private high school students are eligible to compete as individuals and as team members in a series of 10 academic tests and demonstrations. These include mathematics, economics, science, social science, art, language and literature, music, essay, interview, and speech.

The Decathlon is funded by the San Joaquin County Office of Education (SJCOE), with some expenses paid courtesy of the San Joaquin County Office of Education Educational Foundation, which provides money to enhance and upgrade the program. Corporate sponsorship and other personal contributions for the Decathlon help to keep the cost to enter a team at \$450 in the San Joaquin County competition. The SJCOE also provides the administration and oversight of the general program.

Art Camp

Color the Summer Art Camp is a two and a half to 3-and-a-half-day retreat where students in grades 4-8 can experience art and all the inspiration that nature has to offer. Students enjoy a wide range of classes including watercolor, oil pastel, tempera paint, graphite, color pencil, chalk pastel, and many others.

These classes are taught by enthusiastic high school students who are passionate about art. Student teachers are from schools throughout San Joaquin County. San Joaquin County Office of Education's goal was to gather students who are interested in learning different mediums in a beautiful outdoor setting to help them discover their unique voices. Students can expect to learn color theory and the elements of art and principles of design, while enjoying time at the lake, campfire songs, friendly competitions, color run, and much more.

San Joaquin County STEAM Fair & Expo

Who: Grades K - 12

Date: February 25, 2023

Where: San Joaquin County Office of Education
Wentworth Education Center
2707 Transworld Drive, Stockton

About the event

The San Joaquin County Office of Education's Science Technology Engineering Art and Mathematics Fair and Expo aims to celebrate opportunities in STEAM education that inspire and empower all students to be innovative, creative, and determined makers in science, technology, engineering, art, and mathematics. Students of San Joaquin County can exhibit their extensive knowledge and inquiry into a STEAM topic through the presentation of an investigative or showcase project. Top projects will receive monetary awards and may be eligible to proceed to the California State Science Fair.

This all day event is open to families and the community. Along with the traditional "science fair" judging, all attendees will have multiple opportunities for hands-on exploration and engineering as part of our STEAM Fair Expo. Join us for a fun and engaging STEAM-filled day!

Middle School Honors Concert

Saturday, March 4, 2023

San Joaquin Delta College
Atherton Auditorium
5151 Pacific Avenue, Stockton

The Middle School Honors Concert is an annual event featuring the county's most gifted and talented middle school band, string orchestra, and choir students. It is co-sponsored by the San Joaquin County Office of Education, San Joaquin Delta College, and the San Joaquin County Music Educators' Association. Participation is open to all San Joaquin County middle school band, orchestra, and choir students and their directors.

Held in March at the Delta Center for the Arts in the Warren Atherton Auditorium at San Joaquin Delta College, the concert has a list of distinguished guest conductors representing the very best music educators from San Joaquin County. This annual event attracts a large audience and is open to the public free of charge. Musical events such as this have been offered to students in the area for over 60 years.

Recorded auditions for band, orchestra, and choir are normally held in November and December. Please see your school's choir, orchestra, or band director for details or visit our website at sjhonors.org.

Science Olympiad

Division B/C

Saturday, March 4, 2023

Ronald McNair High School

9550 Ronald E. McNair Way
Stockton

Exploring the World of Science

Division A

Saturday, March 11, 2023

Ronald McNair High School

About the competition

Science Olympiad tournaments are rigorous academic interscholastic competitions that consist of a series of individual and team events for which students prepare during the year. The competitions follow the format of popular board games, TV shows, and athletic games. These challenging and motivational events are distributed between the various science disciplines of biology, earth science, chemistry, physics, computers, and technology.

There is a balance between events requiring knowledge of science facts, concepts, processes, skills, and science applications. There are three levels of competition available to any San Joaquin County school, public or private: Division A for grades 3-6; Division B for grades 6-9; and Division C for grades 9-12.

Entry is limited to two teams per school for each division. A fee of \$200 per team for B/C and \$150 per team for A is required.

Visit the Science Olympiad website:

Division A: <https://sjcoe.org/scienceolympiad/DivisionA2.aspx>

Math Tournament

April 22, 2023

Division E • Grades 4 - 6

May 6, 2023

Division M • Grades 7 - 8

About the competition

This national program promotes excellence in math while raising student test scores and increasing student self-esteem. The math problems are written to sharpen problem-solving skills and to hone competitive and cooperative skills.

The tournament is open to all public and private schools in San Joaquin County. Schools may enter one team per tournament, with the possibility of a second team based on space availability. Registration fee is \$60 per team.

Coding and Robotics Camps

STEM

- Who:** Grades 3-12
When: Summer 2023
Time: 9 a.m. - 2:30 p.m.
Where: San Joaquin County Office of Education,
• Wentworth Education Center, Harmony Grove Lab
• FabLab

Computer science is in all types of items that we use every day. People often see computer science as calculations and commands. In our coding camps students get to see computer science as so much more. Students get to create a piano with playdough and circuits, engineer an arcade system in a maker space, or design a smart fashion with programmable textiles. Camps range from elementary through high school and cover languages from Scratch to Python. As students apply their knowledge in fun and creative ways, computer science becomes more than an abstract concept and moves to being a tool students use to contribute to the world around them.

Outdoor Education at Sky Mountain Outdoor Education Center

The Sky Mountain Outdoor Education Center encourages children to experience a rich, science-based environment and learn to appreciate the bounty and diversity of the earth by taking a responsible role in protecting our natural resources. This exciting educational program for fifth and sixth graders is often long remembered as the highlight of a student's elementary years.

The site is owned and operated by the San Joaquin County Office of Education (SJCOE) and is located in Emigrant Gap, CA. Students will explore nature outside of the classroom, experience opportunities for collaborative learning and personal growth, and have access to the diverse ecosystems and habitats of the Sierra Nevada.

For the 2023-24 school year, the SJCOE is offering a 5-day, 4-night (August 2023 - November 2023) and a 3-day, 2-night (December 2023 - May 2024) outdoor education experience.

The registration link will go live at 8 a.m. on the first Monday in February (February 6, 2023). You can find the link on our website or at outdooreducation.sjcoescience.org/SkyMountain.

Sky Mountain is also available for guest groups on weekends throughout the year and weekdays during the summer months of June and July.

EDUCATIONAL FOUNDATION

Artists-in-Schools

Bringing Art Back into the Classroom

Artist Residencies: The Artists-in-Schools program is designed to bring professional artist residencies to county students, grades K-8. The program's goal is to provide opportunities to experience art in the classroom.

Residencies are available in visual art and dance. The artists work with students in kindergarten through eighth grade. Artists work with each of the selected classes for one hour per week for up to eight weeks. Lesson plans are developed according to the artist's area of expertise and are California standards-based. Please visit our website or call for program details.

Bookings for the 2023-24 school year open January 1, 2023!

San Joaquin County Office of Education Educational Foundation (SJCOEEF) Golf Shootout

Tentatively Scheduled for September 2023

Contests Include:

- Closest to Pin (men and women)
- Longest Drive (men and women)
- Putting Contest

Your donation includes green fees, cart, use of practice range, beverages, breakfast, lunch, tee prize giveaways, and support to the San Joaquin County Office of Education Educational Foundation (SJCOEEF), a non-profit organization. Your donation is also tax-deductible to the fullest extent permitted by law.

The tournament offers major prizes for any hole-in-one on any designated par 3 hole. All players have an opportunity to win amazing prizes such as golf clubs, (2) airline tickets, and/or the grand prize of \$10,000 cash.

All proceeds raised at this fundraiser go to the SJCOE Educational Foundation, which supports the many academic student events and programs referenced in this catalog.

For more information and tournament registration, please call (209) 468-9061.

Durham Ferry Outdoor Education Center

Durham Ferry Outdoor Education Center is located at 29442 Airport Way in Manteca. It rests on a large bend of the San Joaquin River. The 240-acre property includes nearly 80 acres of riparian forest on the riverside of the levy road. The site is a gem of local biodiversity, home to many native plants, birds, mammals, and other wildlife. It sits on the Pacific Flyway, an international route for migratory birds, and is near enough to San Joaquin National Wildlife Refuge and Caswell State Park to have potential continuity with some of the wildlife populations at these sites.

Durham Ferry Outdoor Education Center offers programs for multiple grade bands.

MEANDER field trips are for students in grades 3-5. Students go on a 1.5 hour hike along the trails in a riparian ecosystem and explore the San Joaquin River beach. Students also use natural phenomena to develop scientific skills, such as asking questions and constructing explanations. The field trip cost is \$350 per class for no more than 32 students.

BioBlitz field trip are for students in grades 6 through college. Students explore the riparian forest by the San Joaquin River. Students work in groups to identify and record the predominant species at the Durham Ferry Outdoor Education Center. Field trip cost is \$350 for a class of no more than 32 students.

Let's Play Outside Summer Camps have multiple offerings throughout the summer. Campers in grades 3 through 8 participate in science, engineering, and recreational activities. They go on nature hikes to the San Joaquin River, learn about local ecosystems, engineer, and develop their artistic skills. Campers practice archery, fishing, and other recreational activities. We make science fun!

SJCOE
EDUCATIONAL FOUNDATION

The SJCOE Educational Foundation supports academics, student events, and other valuable programs. The Foundation's support would not be possible without the donations made by the community. Sponsors mentioned reflect donations of 250 and above to the Foundation and SJCOE from July 1, 2021, through June 30, 2022. Thank you to the Educational Foundation Board of Directors: Jacalyn Davis, Janwyn Funamura, Dylan George, Charlynn Harless, Dean Janssen, Raymond McCray, Greg McCreary, William Trezza, Troy A. Brown, Jane Steinkamp, Scott Anderson, and Marlene Flau.
