School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2022-23 School Year

This chart shows the total general purpose revenue John McCandless Charter expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for John McCandless Charter is $4,241,104, of which $4,018,879 is Local Control Funding Formula (LCFF), $95,219 is other state funds, $4,900 is
local funds, and $122,106 is federal funds. Of the $4,018,879 in LCFF Funds, $291,827 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).
LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much John McCandless Charter plans to spend for 2022-23. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: John McCandless Charter plans to spend $4302267 for the 2022-23 school year. Of that amount, $3642276 is tied to actions/services in the LCAP and $659,991 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

- indirect costs and facility costs

Increased or Improved Services for High Needs Students in the LCAP for the 2022-23 School Year

In 2022-23, John McCandless Charter is projecting it will receive $291827 based on the enrollment of foster youth, English learner, and low-income students. John McCandless Charter must describe how it intends to increase or improve services for high needs students in the LCAP. John McCandless Charter plans to spend $348226 towards meeting this requirement, as described in the LCAP.
LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2021-22

This chart compares what John McCandless Charter budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what John McCandless Charter estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2021-22, John McCandless Charter’s LCAP budgeted $347,822 for planned actions to increase or improve services for high needs students. John McCandless Charter actually spent $357,186 for actions to increase or improve services for high needs students in 2021-22.
Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).

Input is taken continuously throughout the year with our educational partners through the LCAP process. Through this input, several plans were created for the additional state funds provided through the Budget Act of 2021. These additional funds did not impact the 2021-22 Local Control and Accountability Plan (LCAP).

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

John McCandless Charter did not receive the concentration grant add-on.

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.
John McCandless Charter did not receive one-time federal funds.

A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

John McCandless Charter did not receive ESSER III funding.

A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA's 2021–22 LCAP and Annual Update.

The John McCandless Charter Local Control Accountability Plan (LCAP) has four goals which focus on academics, multi-tiered systems of support, English learners, students with disabilities, providing all students with a safe and supportive culture, climate and learning environment. Our emphasis is always on teaching and learning. All plans are in alignment and reflect blending and integrating actions. Professional development has been ongoing. Opportunities for enrichment and extended learning continue to be priorities.

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education’s (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs...
to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

- The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
- All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
- Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA’s educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:

- The 2022–23 Budget Overview for Parents
- The 2021–22 Supplement
- The 2022–23 LCAP
- The Action Tables for the 2022–23 LCAP
- The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA’s 2022–23 LCAP.

**Instructions**

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA’s educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

**Prompt 1:** “A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).”

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

**Prompt 2:** “A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff...”
who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent."

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California Education Code Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Prompt 3: "A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils."

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (https://www.cde.ca.gov/fg/cr/relieffunds.asp) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page (https://www.cde.ca.gov/fg/cr/) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

Prompt 4: "A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation."

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA’s implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

Prompt 5: "A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update."
Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA’s 2021–22 LCAP. For purposes of responding to this prompt, “applicable plans” include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

Plan Summary [2022-23]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

John McCandless Charter School is a Lincoln Unified School District dependent charter school. The school opened in 2015-16 with grades Kindergarten through 3rd. Every year John McCandless added grades levels and the current students rolled up into the new grade level. For the first few years, John McCandless was housed at multiple sites. In 2019-2020, John McCandless Charter serviced students in grades TK-8, in two locations. That year Lincoln Unified School District purchased a property on Rose Marie Lane. This property is large enough to house the entire TK-8 program for John McCandless Charter. In 2020, John McCandless Charter relocated to the Rose Marie Location. John McCandless Charter School is designated a School-wide Title1 school. Our students are 49.5% Hispanic, 0.5% American Indian/Alaskan Native, 8.5% Asian, 3.7% African American, .9% Pacific Islander, 3.2% Filipino, 25.7% White, 7.3% two or more races. English Learners make up 5.4% of our student population and 35% of our students are on free or reduced lunch. We have 7.9% of our population receiving special education services. John McCandless Charter School is dedicated to STEM education and Project Based Learning. Our mission is to provide a comprehensive, quality education, with an additional emphasis in science technology, engineering, and mathematics to prepare all students for success in a rigorous middle school and high school curriculum. Our vision is to be a leader in STEM education, preparing and inspiring our learners to meet the challenges of the 21st century through innovation, collaboration, and creative problem solving.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

John McCandless Charter School has been operating for 6 years. Apart from 2020, our CAASPP data reveals that we are making steady progress as a school, increasing each year in both ELA and Math scores (74% and 73% meeting or exceeding grade level respectively in 2019). We gauge our students’ overall academic successes by looking for growth during the time they have attended our school. We gauge the success of programatic decisions by comparing assessment results to students in other schools who use similar assessments (CAASPP,
MAP, and DIBELS Reading). That data shows that students at John McCandless are learning to read and write at an achievement level the same or better than other San Joaquin Valley charter schools and Lincoln Unified School District schools. John McCandless Charter School students are showing math achievement that is significantly higher than other San Joaquin Valley charter schools and LUSD school sites. Our progress is evident on the 2019 California Dashboard with indicators of blue for ELA and Mathematics. In 2022 winter MAP scores in math improved from 52% of third graders meeting math standards to 73%. All teachers hired for John McCandless Charter School hold valid credentials and EL authorizations. All students have access to core and supplemental instructional materials that are exactly the same as those used in LUSD. John McCandless Charter School had no Williams Act findings. We still have much work to do in the areas of pupil achievement and the implementation of state standards.

An analysis of data indicates that John McCandless STEM charter continues to make appropriate progress toward goal two. The desired outcome for 2023-24 was met for students with disabilities in middle school. 100% of middle school students with disabilities finished quarter four with passing grades in each class. This was in large part due to the addition of a study skills course for middle school students with disabilities. English learners continue to reclassify as proficient in English at the desired rate. Supplemental curriculum, special education services, paraeducator support, and intervention have had a positive impact on student achievement data. We are exceptionally proud of the overall achievement of all of our English Learners. The percent of English Learners reclassified as proficient in English increased from 27% to 31.5% for the 2020-2021 school year.

Positive Behavior Intervention and Support (PBIS) and restorative practice efforts to create a safe, conflict-free learning environment continue to positively impact our students' behavior, interactions with one another, and communication. The employment of these practices also reduces discipline incidents and empowers students to have a voice as they problem solve using skills they are developing. In 2021, suspension rates decreased dramatically. This decrease is due to the COVID-19 pandemic and students learning at home. In 2021-2022 we implemented social emotional learning lessons to improve behavior and self regulation. This work should continue. Additional counseling support was provided to JMC students.

John McCandless parents support their students in many ways. We have a strong PTSA, parent help in classrooms, and well-attended events. All events have an academic portion that shares school related student work with parents and community members. 92% of JMC families attended at least one family event in 2021-22. That is an improvement and a success. At the start of the year many activities involving the community were completed virtually. While many of our families attended virtual events such as parent coffees and APTT, the vast majority attended in person events in the fourth quarter such as open house, band concerts, promotion, wax museum, and in class activities.
Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

All reflection pertaining to the dashboard cites 2019 data because that was the last available dashboard update due to the COVID pandemic. John McCandless Charter School's 2019 California School Dashboard consists of blue indicators for ELA and Mathematics. John McCandless STEM Charter saw a decrease in the percentage of students meeting or exceeding standards in mathematics, English language arts and science on the 2021 CAASPP. This can be attributed to the challenges of distance learning during the 2020-21 school year. Additional academic support is needed to assist students in all academic areas. 2021 CAASPP results showed a 30% decrease in fifth grade science, a 29% decrease in students meeting ELA standards, and a 28% decrease in students meeting or exceeding math standards in grades 3-8. JMC implemented small group instruction, additional para educator support, afternoon intervention and after school tutoring to address those significant dips. John McCandless Charter School also saw an increase in Chronic Absenteeism in 2019 from 2.1% to 4.7%. The chronic absenteeism rate again increased to 6% in 2021, mostly due to the pandemic. Additional outreach through the use of a school counselor and office clerk was identified as a need and implemented. Personal phone calls from staff, regular attendance check-ins, home visits, and SSTs were implemented to assist in decreasing chronic absenteeism. Additional parent support through counseling and outreach has been put in place to assist families in remaining connected to John McCandless Charter School. Attendance continues to be an area in which improvement is needed. We were unable to analyze the steps we put in place to improve attendance due to an increase in absenteeism due to the COVID pandemic. We continue to see evidence of achievement gaps due in part to COVID, the impact of distance learning, and 2021-2022 attendance rates. We do believe we are focusing on necessary actions and services and will continue to work on refining our implementation and intervening more quickly and more often as we review data on our students.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

Students remain the top priority at John McCandless Charter School. School Culture and Engagement, High Academic Achievement, and Parent Involvement remain our areas of focus. The LCAP is comprised of four goals and a variety of actions which address the three areas of focus identified by our stakeholders. All goals and actions address state and local priorities. All components of the LCAP were developed based on student data and educational partner input.

School Culture and Engagement:
All students should be and feel safe at school. We will continue to maintain clean, safe physical facilities with the addition of our newly renovated TK-8th grade campus on Rose Marie Lane. We will continue to work on teaching positive behaviors and conflict management skills to students to help them make good, safe decisions. In addition, we believe that all students should feel welcome and sense their importance to our school community. Additional social and emotional support is a key component of the LCAP to school safety and student success. To address that goal, we will continue to provide a myriad of opportunities in relation to STEM.

High Academic Achievement:
Our goals focus on providing a high quality, innovative learning environment that emphasizes science, technology, engineering and math (STEM) as well as core subject matter. We continue to work to keep teachers current on Project Based Learning, technology integration, and the Next Generation Science Standards. Student progress will be carefully monitored through multiple measures of assessment. Stakeholders addressed an increased need for improvement in writing.

Parent Involvement:
Most John McCandless parents are involved in their students' learning in one or more ways. The goal continues to be that all John McCandless parents are involved in their children's education. We will continue to promote and encourage parent involvement.

Goal 1
Provide all students high quality classroom instruction, equitable access to a broad course of study and standards aligned curriculum. Priorities 1, 2, 4, 7 and 8 are addressed through this goal and these actions. Teachers will receive professional development to implement new science curriculum aligned to the NGSS. Staff will be provided with professional development in key content areas and Project Based Learning. Enrichment opportunities and supplemental instructional materials will be provided to improve student success and address any learning loss due to the pandemic. Staff will be provided release time for observation, alignment, professional development, and planning. John McCandless will recruit and retain highly qualified teachers. Additionally, all students will be provided with devices and staff will receive technology to assist in access and implementation of standards based instruction.

Goal 2
Increase the achievement of all students (including English Learners, Socioeconomically Disadvantaged and Students with Disabilities) in reaching high academic standards and attaining proficiency in ELA and Mathematics. Priorities 2, 4, and 8 are addressed through this goal and the following actions. Staff will receive professional development in PBL, writing, ELD, ELA, and mathematics to target students with academic need including the above identified students groups. John McCandless Charter will provide supplemental curriculum in technology, engineering, math, science, social science, and ELA to extend learning, provide support for intervention, and support the charter mission and vision. Identified students will participate in targeted small group intervention and tutoring in ELA and Math. John McCandless Charter will contract with Lincoln Unified School District to provide services to students with disabilities.

Goal 3
All students will have a safe and supportive school culture, climate, and learning environment to promote academic achievement and physical and emotional health. Priorities 5 and 6 are addressed through this goal and the following actions. Mental health and counseling services and professional development will be provided to staff and students to improve overall behavior on campus. Personnel will implement PBIS to actively supervise recess and assist with student behavior modification to reduce behavioral infractions. Professional development will be provided to all staff in PBIS and Restorative Practices to reduce behavioral infractions and improve school culture. Staff will implement behavior supports to improve student behavior. Implementing consistent, systematic social emotional learning school wide will address attendance and culture needs at John McCandless STEM charter.
Goal 4
Engage parents and community members as partners to work collaboratively to support and enhance student achievement. Priority 3 is addressed in this goal through the following actions. Monthly parent meetings such as coffee with administration, PTSA, etc. John McCandless Charter will hold community events such as STEM Fest, Flight Museum, and APTTs. Parent education will be provided to assist parents in connecting to the school site and improve student achievement. Staff will use Parent Square for all communication.

Comprehensive Support and Improvement
An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

**Schools Identified**
A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

**Support for Identified Schools**
A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

**Monitoring and Evaluating Effectiveness**
A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A
Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Parents, students, staff and community members were given the opportunity to provide input through various means. Monthly coffees with administration, designated LCAP input sessions, Youth Truth Survey, staff meetings, School Site Council, and direct emails are some examples of how community members assisted in the LCAP process. Students in student leadership provided feedback during their leadership elective. Additionally, students were able to provide input through the Youth Truth Survey. Staff members provided input during staff meetings, through shared documents, through school site council, through the Youth Truth Survey, via direct message, and during specific LCAP input meetings. The input gathered by site administration from parents, teachers, other school personnel, and students was used in conjunction with student data to develop goals and actions for the LCAP.

In the fall John McCandless Charter develops a proposed timeline for engaging educational partners. The timeline lists dates and times for proposed meetings with stakeholder groups. Multiple virtual meetings were held between September 2021 and May 2022 to share updates on the 2021-22 LCAP. The updates included progress based on identified metrics for state priority areas and local measures identified for the 2021-22 school year as well as progress on the implementation of actions. Educational partners were given the opportunity to identify actions from the 2021-22 LCAP to maintain or change. Based on this input the goals for the 2022-23 LCAP were maintained and shared with educational partners at a second meeting and again educational partners were given an opportunity to propose new actions or actions to maintain. The goals and actions from the 2021-22 LCAP were maintained based on feedback from educational partners.

School Site Council, teachers, staff, and site administration participated in the reporting of data and analysis of actions during the meetings identified in the LCAP timeline. At these meetings the CA Dashboard results and other local measures were shared with educational partners. Educational partners were then given the opportunity to review the current goals and implemented actions. Educational partners then provided feedback on the actions associated with each goal. Their input has been included in the development of the 2022-23 LCAP.

A draft plan was shared with the Board of Trustees at their regularly scheduled meeting on May 19, 2022. Feedback from the board presentation has been incorporated into the plan as we prepared a final LCAP. The final LCAP was presented to the John McCandless Executive Board on June 15, 2022.

A summary of the feedback provided by specific educational partners.

Students, parents, and staff members provided feedback to influence the development of the LCAP.

Students reported that they feel welcomed on campus and in class. They love the family and student events, want to see them continue and increase (tie dye, movie nights, STEM fest, rallies, dances, etc.). They would love more competition on campus involving staff, students, academics, and athletics. Additionally they would like to see clubs and sports return to the John McCandless campus now that COVID
restrictions are removed. Students reported that there needs to be more interaction across grade levels and that they have enjoyed what we have started to implement. Students stated that they benefit from tutoring offered at lunch and before school. Students reported that staff are caring and want them to succeed. Finally, students reported that they would like more hands on STEM activities at lunch and for teachers to be provided professional development to continue to grow.

Parents reported that they would like to see more culturally inclusive family events and outreach. They stated that they enjoy community and family events and would like to see them continue at John McCandless Charter. Use of the gym for school rallies and whole school community building was a priority for families. Parents noted that students would benefit from additional tutoring, additional teacher training as needed, and continued implementation of hands on activities. Parents also noted a need for more academic, athletic, and social clubs on campus. Parents noted an increased need for counseling support and social emotional learning. Counseling services were expanded based on this input. Families also reported that they want a deeper connection to campus and are eager for school wide events to resume. Parents noted a decline in students' writing ability and a need for additional writing instruction. Staff attended professional development in writing to address this concern. Parents stressed the need for additional social and emotional support on campus for students and staff.

Staff reported a need for social and emotional support as well as curriculum in this areas. Additional mental health support is needed for students, families, and staff. Staff commented on the need for more planning time and professional development opportunities. Additionally, staff noted a need for intervention materials, paraeducator assistance, and paraeducator training. Additional funding for hands on materials and supplies related to STEM instruction and the charter. Staff specifically noted the need for a stronger multigrade STEM program. Staff is creating a STEM scope and sequence to identify areas of need and maintain consistency throughout the school.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

All aspects of the LCAP were influenced by input from educational partners and student data. The four goals created address student needs, educational partner input, and state and local priorities. The LCAP is the result of all educational partner input and work of the administration at John McCandless Charter to address the identified needs and recommendations as well as feedback received. The proposed goals were shared with all educational partners and no further revisions to the goals were suggested. Actions identified by stakeholders as supporting the goals were maintained.

All actions in the LCAP were created with educational partner input. Educational partners noted a need for an increase to intervention services proved by teachers and paraeducators for all students as well as English Learners. This need will continue to be addressed with Expanded Learning Opportunity grant funds. Parents noted an increased need for counseling support and social emotional learning. Mental health services will continue to be maintained in action 3.1 based on this input. Additionally, funding was allocated to purchase social emotional learning curriculum in action 3.3 based on educational partner input.

We will use an ongoing cycle of inquiry to ensure that we are developing a plan that allows us to better meet the needs of all of our students and to define a meaningful direction for John McCandless Charter.
## Goals and Actions

### Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Provide all students high quality classroom instruction, equitable access to a broad course of study and standards aligned curriculum.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

John McCandless Charter uses both state and local measures (DIBELS, MAP). Local measures indicate that there is continued need for a focus on providing all students with high quality classroom instruction, equitable access to a broad course of study and standards aligned curriculum. The actions in this goal are designed to improve student performance in math, ELA and science. We will monitor and evaluate the actions by reviewing MAP, DIBELS, and CAASPP data as well as soliciting feedback from educational partners throughout the year.

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

During the 2021-22 school year, John McCandless Charter successfully implemented Project Based learning in every grade level. Staff participated in professional development and planning sessions surrounding Project Based Learning. Additionally, supplemental materials
were provided and utilized for student achievement. In response to student data, additional supplemental materials to facilitate early literacy instruction were needed and purchased. Transitional kindergarten and kindergarten teachers used these materials to provide early intervention in grades K-3. John McCandless continued to offer an extended day to provide time for genius hour and increased hands on learning opportunities.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The NGSS adoption materials have not yet been entered into the estimated expenditures resulting in a material difference. Both core services and instructional time were more than budgeted due to salary increases. The need for iPads in kindergarten resulted in an increase to spending in technology.

An explanation of how effective the specific actions were in making progress toward the goal.

All teachers hired for John McCandless Charter School hold valid credentials and EL authorizations. All students have access to core and supplemental instructional materials that are exactly the same as those used in LUSD. John McCandless Charter School had no Williams Act findings. We still have much work to do in the areas of pupil achievement and the implementation of state standards. We continue to see evidence of achievement gaps due in part to COVID, the impact of distance learning, and 2021-2022 attendance rates. We do believe we are focusing on necessary actions and services and will continue to work on refining our implementation and intervening more quickly and more often as we review data on our students.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The goal was maintained. The majority of actions and metrics remained unchanged. NGSS pilot adoption is no longer needed as we have adopted new curriculum. Professional development was added in goal 1.1 to ensure appropriate implementation and replace the action regarding NGSS adoption. Third grade Math MAP data hit the desired metric. The desired outcome metric was adjusted to reflect growth. All other actions and metrics remain unchanged.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

<td>2</td>
<td>Increase the achievement of all students (including English Learners, Socioeconomically Disadvantaged and Students with Disabilities) in reaching high academic standards and attaining proficiency in ELA and Mathematics.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

The 2019 CA Dashboard Academic Indicators and local measures used to measure student proficiency during the 2020-21 school show a need for continued focus on the academic achievement of all students and identified student groups in reaching proficiency in ELA and Mathematics. This goal was developed to increase current progress and achievement. The actions in this goal are designed to improve student achievement for our unduplicated population in math and ELA. We will monitor and evaluate the actions by selecting and reviewing reclassification, report card, and CAASPP data as well as soliciting feedback from educational partners throughout the year.

### Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The actions identified in 2021-2022 were implemented as designed. Teachers were observed teaching designated ELD, paraeducators supported English learners and students with disabilities, and small group intervention occurred.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There was an increase to the cost of Intervention support due to salary increases.

An explanation of how effective the specific actions were in making progress toward the goal.

An analysis of data indicates that John McCandless STEM charter continues to make appropriate progress toward the goal. The desired outcome for 2023-24 was met for students with disabilities in middle school. This was in large part due to the addition of a study skills course for middle school students with disabilities. English learners continue to reclassify as proficient in English at the desired rate. Supplemental curriculum, special education services, paraeducator support, and intervention have a positive impact on student achievement data.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The planned goal remains the same, but an adjustment in metrics was needed for a variety of reasons. Due to the suspension of the dashboard, an additional metric was added to analyze student data. CAASPP data will be used as a metric for analyzing effectiveness of...
various actions. The metric for the percent of English Learners reclassified as proficient in English was adjusted because the desired outcome was met. Additionally, the metric for middle school students with disabilities passing their classes had to be adjusted because the 2023-24 desired outcome was met. Based on data and information from educational partners, early literacy and behavior were greatly impacted as a result of distance learning. Increased support in primary classrooms was deemed as a great need.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
Goals and Actions

Goal

</thead>
<tbody>
<tr>
<td>3</td>
<td>All students will have a safe and supportive school culture, climate, and learning environment to promote academic achievement and physical and emotional health.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

The 2019 CA Dashboard Academic Indicators and local measures used to measure suspension and attendance rates identified a need for improvement in both areas. 2021 local data showed improvement in both areas. This goal was developed to address attendance concerns and the overall physical and emotional health of students on campus. This goal aims to improve school culture and reduce disciplinary infractions. The actions in this goal are designed to improve student attendance and suspension rates. We will monitor and evaluate the actions by selecting and reviewing data as well as soliciting feedback from educational partners throughout the year.

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Mental health supports were implemented as planned. Students participated in small group mental health support groups on improving a sense of belonging, building positive friendships, grief, and much more. These services lead to a decline in high level disciplinary infractions. A focus center was implemented and assisted in the decrease of ongoing disciplinary infractions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no significant material differences between Budgeted Expenditures and Estimated Actual Expenditures in the implementation of actions for this goal.

An explanation of how effective the specific actions were in making progress toward the goal.

Additional mental health support had a direct impact on school discipline. The implementation of a focus center assisted in quick redirection and addressing the cause of behavioral infractions. Student behavior improved as the year progressed. Attendance continues to be a
concern due to the COVID-19 pandemic. As that situation improves, additional SST meetings and social emotional learning is projected to improve school culture and attendance.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The goal remains the same. A new measure was added to include student data from the Youth Truth survey related to school climate. Educational partners identified an increased need for systematic instruction in social emotional learning. Action 3.3 was added to support a consistent SEL curriculum for implementation school wide. Educational partners also identified the need to maintain mental health support. These actions will continue to support the achievement of this goal.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
## Goals and Actions

### Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Engage parents and community members as partners to work collaboratively to support and enhance student achievement.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

Family and community involvement is a direct contributor to student success. Educational partners would like to see an increase in family and student events outside of the school day. Families would also like monthly informal meetings to continue. John McCandless Charter has an involved parent community and would like to maintain the level of family involvement moving forward. The actions in this goal are designed to improve family involvement. We will monitor and evaluate the actions by reviewing data from the Youth Truth Survey, Parent Square and community events. Additionally, John McCandless will solicit feedback from educational partners throughout the year.

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

Parent education and community events resumed during the 2021-2022 school year. Teachers facilitated academic parent teacher team meetings virtually in the fall and spring. Parents have active parent square accounts and are using it regularly to communicate with school personnel. Families attended parent coffees, APTT meetings, conferences, pizza night, PTSA meetings, and Open House.
An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences between budgeted expenditures and estimated actual expenditures.

An explanation of how effective the specific actions were in making progress toward the goal.

At the start of the year many activities involving the community were completed virtually. While many of our families attended virtual events such as parent coffees and APTT, there continued to be a disconnect which was reflected in the Youth Truth survey data. In the final quarter of the 2021-22 school year, events were held in person. This resulted in an increase in family engagement and was reflected in the metric for families attending events.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The goal and actions remain the same. A new measure was added to include student data related to school climate. The metric for Families completing the Youth Truth Survey was adjusted because the desired outcome for 2023-24 was met. Additionally, the metric for families attending at least one event/meeting per year was adjusted because the desired outcome for 2023-24 was met.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

**Required Descriptions**

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

John McCandless Charter has an unduplicated pupil count of 39.15%. Based on our student data, we know that our unduplicated pupils have specific needs in academic achievement and student engagement. The following actions and services are provided on a school-wide basis, using LCFF funds, with a focus on addressing the needs of unduplicated pupils.

Goal 1: John McCandless Charter is committed to providing our students with high quality instruction delivered by committed and trained staff, the most up-to-date technology, a standards-aligned curriculum, and opportunities for equitable course access. "In the increasingly competitive global economy, it is crucial for American students to be well-trained in math, science and critical languages. U.S. students are currently performing below their international peers in math and science. We live in a world where technological innovation and global competition are increasing at a pace never before seen. Now is the time to invest in our children to make sure they are prepared to succeed in the 21st century." - U.S. Secretary of Education, Margaret Spellings (Action 1.2 and 1.4). Academic Indicators on the California Dashboard as well as local measures indicate that English learners, low-income students, foster youth and homeless students have made progress. Project Based Learning (PBL) implemented sitewide continues to provide engaging access to standards-based instruction across various content areas (Action 1.2). "PBL shows promise as a strategy for closing the achievement gap by engaging lower achieving students." - Boaler, 2002; Penuel & Means, 2000. "PBL can work in different types of schools, serving diverse learners." - Hixson, Ravitz, & Whisman,
2012. The charter will provide additional instructional time (Action 1.8). These services are principally directed towards, and are the most effective use of funds to meet the charter goals for its unduplicated pupils in state priority areas 1, 2, 4, 7, 8, while serving the needs of all students. Based on the improved academic achievement of unduplicated pupils it has been determined that these actions have been effective in addressing the intended outcomes and these actions have been continued.

Goal 2: John McCandless Charter is focused on improving the achievement of all students in reaching high academic standards and attaining proficiency in ELA and Mathematics. Assessments in ELA and Math indicate that John McCandless Charter is making progress in academic achievement for English Learners, low income students, Foster Youth and Homeless students. The charter will provide professional development focused on supporting English Language Development (ELD), ELA and Mathematics. Students facing academic challenges will receive intervention support during the school year and access to a summer program. Our students will benefit from skilled teachers trained to support students with unique learning and behavioral needs from diverse backgrounds (Actions 2.1, 2.2, 2.3).

Professional development to support the implementation of high quality instruction and coaching support helps teachers to design effective classroom instruction and Tier 1 interventions to differentiate for the diverse needs of students (Sweeney, 2011). Professional development that occurs regularly and over the span of several months can increase student achievement (Yoon, Duncan, Lee, Scarioss, and Shapley, 2007). These actions serve as the Charter’s core approach to educating all English Learners with a focus on developing language fluency and improved academic achievement (Zacarian, 2011). These specific actions are principally directed towards and are the most effective use of funds to meet the district goals for its unduplicated pupils in state priority areas 2, 4, 8, while serving the needs of all students. Based on the continued academic achievement of our unduplicated students, specifically low income students in ELA and Mathematics we believe these actions should be maintained as they have been effective in addressing the intended outcomes.

Goal 3: John McCandless Charter is committed to providing all students with a safe and supportive school culture, climate and learning environment to promote academic achievement and physical and emotional health. The Chronic Absenteeism indicator for the charter has decreased from blue to yellow for all students and from green to orange for students with disabilities and low income students. Additionally, the suspension rate is appropriately proportionate for English learners and low income students. The charter will provide counseling and mental health services, behavioral supports and support staff to assist with outreach and providing a safe and supportive learning environment (Actions 3.1, 3.2). The California Department of Education indicates that effective counseling programs and alternative academic settings allow students to resolve emotional, behavioral and academic problems, which helps them develop a clearer focus or sense of direction, important when building a positive school climate and improving student achievement. Providing social emotional support to unduplicated students helps to improve academic achievement (Jensen, 2009). The impact of attendance on student achievement has been documented by research, including how prevalent Chronic Absenteeism is (Attendance Works). These specific actions are principally directed towards and are the most effective use of funds to meet the Charter’s goals for its unduplicated pupils in state priority areas 5, 6. Based on the outcomes for unduplicated pupils already achieved in both attendance and engagement we believe these actions are effective in achieving the goals for all students while also meeting the needs of our unduplicated pupils.
A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

John McCandless Charter School, with input from its educational partners, has determined that it is appropriate to utilize our supplemental and concentration funds in a charter-wide manner. The above funds are principally directed for the use of supports and services to all students at John McCandless. Services for unduplicated pupils are increased or improved by more than the required 7.83%, as compared to services provided for all students. Based on supporting research, experience, and educational theory, John McCandless Charter has determined these actions described in the LCAP are the most effective use of funds to meet the charter's goals for unduplicated pupils. With a site-wide unduplicated pupil count of 39.15%, John McCandless Charter recognizes that a significant percentage of our pupils may come from homes that do not have the resources to provide early education, technology, outside tutoring, or other supports for student achievement and engagement. John McCandless Charter has chosen to spend the majority of our supplemental and concentration funds in a site-wide manner. We believe the above referenced research and identified actions and services provide justification for doing so. Based on alternatives considered research and experience, we have determined this approach to be the most effective use of these funds and they are principally directed toward and effective in meeting the charter's goals for unduplicated pupils because these actions focus on the identified needs of these students. Although we discussed other actions and services for alternate consideration, we were unable to identify any additional actions or services that should be provided to only our unduplicated students. In discussions with stakeholders and review of research, most of the recommended actions and services identified to address the needs of unduplicated pupils were determined to be of benefit to all students. It is our determination that funds allocated to implement best practices, assure teachers have adequate training and professional development and receive coaching, for the effective implementation of high quality instruction will meet the needs of all learners including our unduplicated pupils as well as our student subgroups where academic achievement gaps exist. Providing intervention supports, counseling and mental health services and support staff contributes to student learning in a positive and safe school culture and climate and has been deemed an effective use of supplemental funds for unduplicated pupils based on research, experience, educational theory and good educational practices. The use of Project Based Learning is an ideal means of lesson delivery to continue to lessen any present achievement gap while benefiting all students.

Although our unduplicated count of students is 39.15%, we have carefully considered how best to direct our funds and believe the utilization of these funds in a charter wide manner is most appropriate. We believe the actions and services written, as well as the identified use of our funds, will meet the goals for unduplicated pupils in all of the state and local priority areas.
A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

John McCandless Charter did not receive additional concentration grant add-on funding.

Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA’s programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  
  o Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  
  o Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
  
  o Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

    Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

**Plan Summary**

**Purpose**
A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

**Requirements and Instructions**

**General Information** – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA’s LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year’s LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.

- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

**Engaging Educational Partners**
Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE’s website: https://www.cde.ca.gov/re/lc/.

Requirements and Instructions

Below is an excerpt from the 2018–19 Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

**Local Control and Accountability Plan:**
For county offices of education and school districts only, verify the LEA:

- **a)** Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

- **b)** If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
• Inclusion of action(s) as contributing to increased or improved services for unduplicated services
• Determination of effectiveness of the specific actions to achieve the goal
• Determination of material differences in expenditures
• Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
• Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose
Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions
LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

• Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

• Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

• Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.
Focus Goal(s)

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

**Consistently low-performing student group(s) criteria:** An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.
Goal Description: Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.

Explanation of why the LEA has developed this goal: Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the “All Students” student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

Low-performing school(s) goal requirement: A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

Goal Description: Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

Explanation of why the LEA has developed this goal: Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

Measuring and Reporting Results:
For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.
Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.
- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “Measuring and Reporting Results” part of the Goal.

<td>Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.</td>
</tr>
</tbody>
</table>

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions**: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in California Code of Regulations, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners**: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in EC Section 306, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth**: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis**:

Enter the LCAP Year.
Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

### Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

#### Purpose
A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

#### Requirements and Instructions

*Projected LCFF Supplemental and/or Concentration Grants:* Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.
**Projected Additional LCFF Concentration Grant (15 percent):** Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year:** Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

**LCFF Carryover — Dollar:** Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

**Total Percentage to Increase or Improve Services for the Coming School Year:** Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**Required Descriptions:**

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 *CCR* Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;

- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and

- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.
Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions are the most effective use of the funds to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:
School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:
An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

**Action Tables**

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table

The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year**: This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage**: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

- **Total Percentage to Increase or Improve Services for the Coming School Year**: This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —
Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action is included as contributing to meeting the increased or improved services; OR, type “No” if the action is not included as contributing to meeting the increased or improved services.
- If “Yes” is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
• **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  o **Note**: For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

• **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

• **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

• **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

• **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

• **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

  o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

  For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

**Contributing Actions Table**
As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

**Annual Update Table**

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

**Contributing Actions Annual Update Table**

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

**LCFF Carryover Table**

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).
• **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

**Calculations in the Action Tables**

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

**Contributing Actions Table**

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column

- **5. Total Planned Percentage of Improved Services**
  - This percentage is the total of the Planned Percentage of Improved Services column

- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

**Contributing Actions Annual Update Table**

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)
• 7. Total Estimated Actual Expenditures for Contributing Actions
  o This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)

• Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
  o This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)

• 5. Total Planned Percentage of Improved Services (%)
  o This amount is the total of the Planned Percentage of Improved Services column

• 8. Total Estimated Actual Percentage of Improved Services (%)
  o This amount is the total of the Estimated Actual Percentage of Improved Services column

• Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
  o This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

**LCFF Carryover Table**

• 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
  o This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

• 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
  o This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

• 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
  o If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
• 13. LCFF Carryover — Percentage (12 divided by 9)
  
  o This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
