

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: one.Charter

CDS Code: 39 10397 0120717 1146

School Year: 2024-25

LEA contact information:

Doug McCreath

Director II

dmccreath@sjcoe.net

209-468-5916

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2024-25 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue one.Charter expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for one.Charter is \$20,339,911, of which \$19,387,756 is Local Control Funding Formula (LCFF), \$419,256 is other state funds, \$0 is local funds, and \$532,899 is federal funds. Of the \$19,387,756 in LCFF Funds, \$5,863,888 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much one.Charter plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: one.Charter plans to spend \$19,224,107 for the 2024-25 school year. Of that amount, \$19,175,000 is tied to actions/services in the LCAP and \$49,107 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

General Fund Budget Expenditures for the school year not included in the LCAP include, facilities, operations and maintenance costs.

Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, one.Charter is projecting it will receive \$5,863,888 based on the enrollment of foster youth, English learner, and low-income students. one.Charter must describe how it intends to increase or improve services for high needs students in the LCAP. one.Charter plans to spend \$8,045,000 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what one.Charter budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what one.Charter estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, one.Charter's LCAP budgeted \$5,533,458 for planned actions to increase or improve services for high needs students. one.Charter actually spent \$4,709,943 for actions to increase or improve services for high needs students in 2023-24.

The difference between the budgeted and actual expenditures of \$-823,515 had the following impact on one.Charter's ability to increase or improve services for high needs students:

The difference in actual versus planned expenses for high needs students resulted in a minor delay in providing low-level MTSS supports. This delay was a result of not being able to find applicants for additional staffing at the beginning of the year. Staff was added by mid-year to provide services, but the cost of that staff was not for the entire year.

2023–24 Local Control and Accountability Plan Annual Update

The instructions for completing the 2023–24 Local Control and Accountability Plan (LCAP) Annual Update follow the template.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

This goal was implemented as planned. The first success is related to the portfolio framework (Action 1.2). The portfolio was created and calibrated by staff in multiple PLC meetings and will continue to be adjusted to enhance and evaluate student learner outcomes. PLC meetings were another success (Action 1.3). Meetings were conducted on a monthly basis and staff were actively engaged in analyzing data and then using that analysis to make specific decisions that impacted student learning. There were no instances of not implementing a planned action or implemented in a manner significantly different than planned.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There are no material differences between planned and actual expenditures for these actions under Goal 1. Action 1.3 implemented successfully even though the allotted funds were not spent. This was due to having two staff members who were trained on PLC methods and structures from previous districts. We used their expertise to guide this work and did not have to expend funds on outside support.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

For Actions 1.1 and 1.2, 95% of students completed a portfolio, 5% shy of the 100% that was the expected outcome, and 15% of those portfolios were reviewed by staff for calibration and consistency purposes which was 5% shy of the 20% that was projected to be calibrated. Those increases indicated significant effectiveness in making progress toward the goal. For Action 1.3 (the creation of PLCs to create individualized intervention plans for students) the growth to 45% of EL students making progress towards English proficiency in year 3 as compared to 32% in year 1 is viewed as effective.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Goal 1, Actions 1.1, 1.2 and 1.3 will no longer be continued for the next LCAP cycle. This decision was based on the success of this goal as measured by the metrics used to determine the success (the percentage of students completing the portfolio and the number of portfolios reviewed by staff) of creating portfolios system wide has been achieved and is sustainable. Also, these metrics: 8) percentage of students completing a portfolio and 8) percentage of portfolios reviewed by staff on a quarterly basis for collaboration purposes will not be used in the coming year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goals and Actions

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

There were no substantive differences in planned actions and actual implementation of those actions but, with all goals and actions there are always challenges and successes.

Examples of success include implementation of a new diagnostic tool, Exactpath, (Action 2.3) that is used to determine student reading and math levels and then provides learning paths to close "gaps". The training and support from the Teaching and Learning staff (Action 2.1) along with the support of Edmentum trainers has resulted in the continued use of the program. The challenge of the program, Exactpath, is still convincing adult students (CBK/BFA) to take and then use the provided learning plan. Since this is the largest group of students who resisted taking the diagnostic exams, we saw a decline in the overall number of students taking the exam. But we did see an increase in the number of high school students taking the exam and using the learning plans.

Another success included participation in newly created CTE programs for high school and adult students (Action 2.5). Some of these new CTE programs included Culinary Arts, Logistics, Coding, and Construction Technology.

Teachers being able to create Custom Courses using Edmentum was another success for one.Charter (Action 2.4). These courses are now used by all CBK and CRA teachers. Charter Main and Charter Bianchi teachers are using Edmentum in a blended learning model. These custom built courses include Mastery Tests, End of Unit Exams, and End of Semester Exams that all students take and provide staff with consistent assessment data to review for instructional improvement use.

A huge success was the addition of new staff using supplemental and concentration grant funding (Action 2.11). These new positions included additional teachers, a counselor, career developers, counselor technicians, a health technician and outreach specialists.

Challenges for this school year were not related to implementing a specific action for this goal, but centered around what was termed a "good problem" and that was the significant growth in student enrollment for this school year. This increased enrollment required staff to increase their student case loads, put pressure on the Student Services team, and required the use of temporary staff. There were no instances of not implementing a planned action.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The following actions have material differences in planned vs. actual expenses:

Action 2.1- This difference was attributed to sending staff to multiple professional development activities including conferences and other off-site trainings that required additional travel and hotel costs.

Action 2.4- Additional funds were used to purchase more chrome books due to growth in enrollment and additional meetings to train staff on the use of supplemental materials.

Action 2.7- This difference was attributed to the difficulty in finding and hiring additional staff in a timely fashion. The action was implemented in a successful manner once additional staff was added mid-year.

Action 2.8- This difference was attributed to the rapid increase in student enrollments that required additional expenditures (facilities costs, materials, staffing) to meet this growth.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Overall the actions were effective in making progress towards Goal Two. Actions 2.1 and 2.2 focused on professional development activities designed to improve use of common curricular platforms, common instructional practices, and engagement strategies for all student groups. These metrics 1B and 2A show success for those actions: 100% of students have access to standards aligned curriculum and for state standards, all core subjects are fully implemented. Action 2.3 as measured by metric 4A saw growth in reading scores grow from 15% to 57% and for math from 18%-53%. Action 2.4 and 2.9 were deemed successful based on metric 2A which shows core curriculum is fully implemented and sustainable and metric 1B, 100% of students had access to the curriculum. Actions 2.5, 2.6, and 2.8 were successful based on these metrics: 1A, 100% of teachers were fully credentialed, 1C, 100% of sites are maintained in good order, metric 7 which shows 1005 of students had broad access to broad course of study and metric 4C. Action 2.7 was successful based on metric 5E graduation rate increase to 32%. Action 2.11 was deemed successful using metric 1A which shows there were no vacancies.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

After reflection and analysis, there are no significant changes to the planned goal other than naming it Goal 1 (the current Goal 1 was removed). Action #s will be changed from 2.1 to 1.1, etc, but no other changes will be made to current metrics, desired outcomes or actions for the coming year. Due to the success of implementing Edmentum and the creation of the rubrics for the Student Portfolios, there will be new metrics added to this goal and they include: Metric 8 End of Course Final Average Student Scores as a percentage in English 9-12, Business English, and Algebra and Metric 8 Rubric scores for the 3 identified Student Learner Outcomes (SLOs) and overall Portfolio score. Possible Rubric scores for each SLO can range from 1-3 with a total overall all Portfolio score of a range between 3-9.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

There were no substantive differences in planned actions and actual implementation of those actions. Successes include the addition of several Outreach Specialists and an additional Campus Safety Technician to the truancy intervention team (Action 3.6 and 3.8), the hiring of an additional Mental Health Clinician to support student mental health (Action 3.7), the offering of additional Quests this year (Action 3.4), the Family Engagement team starting a food bank for students and their families (Action 3.5) and there was an overall increase in our partnerships with local agencies, community based organizations and parents/guardians. (Action 3.1, 3.2)

Challenges continue to include supporting high needs students and families and the continued barriers presented by economic and social issues, providing timely and consistent mental health support, and ongoing career support once students graduate.

There were no instances of not implementing a planned action in a manner significantly different from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The following actions have material differences in planned vs. actual expenses:

Action 3.6- This difference was attributed to the difficulty in finding and hiring additional staff in a timely fashion. The delay in hiring staff did not impede, on a long term basis, the ability to implement services.

Action 3.7- One time grant funding was used to cover the expenses associated with the additional mental health clinicians that were hired for the 23-24 school year.

Action 3.8-This difference was attributed to the difficulty in finding and hiring additional staff in a timely fashion. The delay in hiring staff did not impede, on a long term basis, the ability to implement services.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Actions 3.1, 3.2 and 3.3 are focused on outreach efforts and building relationships with all educational partners so they can provide feedback, suggestions, direct support, and decision making for student engagement and learning. Based on Local Indicators that show Full Implementation and/or Sustainability of multiple ways for educational partners to engage with school staff to improve student learning and the increase in the overall enrollment rate for one.Charter indicate those actions are successful. Actions 3.4, 3.5, 3.6, 3.7 and 3.8 are focused on intervention and engagement strategies from multiple staff and programs and based on improved attendance rates (Charter Bianchi 92%, Charter Main 94%, CRA 94%, BFA 94%, and CBK 94%), and a decrease in the dropout rate to 23.5% shows that these actions are working as designed.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

After reflection and analysis, there are no significant changes to the planned goal, or desired outcomes for the coming other than changing Goal 3 to Goal 2 and renumbering the metrics and combining some of them together. All actions will start with the number 2 to match the change to Goal 2.

There are changes to a few of the actions including: under Goal 1 on the new LCAP, Action 3.5 (family engagement) and Action 3.7 being incorporated into Action 1.7 (MTSS); under Goal 2, Action 3.8 and 3.6 combined into one action 2.5 (Truancy Intervention). Actions 3.1, 3.2, 3.3, and 3.4 will be renamed to 2.1, 2.2, 2.3 and 2.4 on the new LCAP.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

Goals and Actions

Goal(s)

Description:

Copy and paste verbatim from the 2023–24 LCAP.

Measuring and Reporting Results

- Copy and paste verbatim from the 2023–24 LCAP.

Metric:

- Copy and paste verbatim from the 2023–24 LCAP.

Baseline:

- Copy and paste verbatim from the 2023–24 LCAP.

Year 1 Outcome:

- Copy and paste verbatim from the 2023–24 LCAP.

Year 2 Outcome:

- Copy and paste verbatim from the 2023–24 LCAP.

Year 3 Outcome:

- When completing the 2023–24 LCAP Annual Update, enter the most recent data available. Indicate the school year to which the data applies.

Desired Outcome for 2023–24:

- Copy and paste verbatim from the 2023–24 LCAP.

Timeline for completing the “Measuring and Reporting Results” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Copy and paste verbatim from the 2023–24 LCAP.	Copy and paste verbatim from the 2023–24 LCAP.	Copy and paste verbatim from the 2023–24 LCAP.	Copy and paste verbatim from the 2023–24 LCAP.	Enter information in this box when completing the 2023–24 LCAP Annual Update.	Copy and paste verbatim from the 2023–24 LCAP.

Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

California Department of Education
November 2023

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
one.Charter	Doug McCreath Director II	dmccreath@sjcoe.net 209-468-5916

Plan Summary [2024-25]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

The one.Charter school is comprised of several programs designed to meet the various needs of at-risk students throughout San Joaquin County. Our programs primarily serve students who have become disengaged in traditional school settings for a variety of reasons and come to us for a chance to continue their education and make positive changes to their lives as well as to their communities. Our school programs include one.Charter Bianchi, one.Charter Main, Career Readiness Academy, Charter Elementary, Building Futures Academy and Come Back Kids. one.Bianchi and one.Main are school sites for grades 7-12. Both sites have a Visual and Performing Arts focus and use enrichment instructors for the Arts to enhance the core academic programs. Career Readiness Academy is designed to serve 12th grade students who are severely deficient in credits and are not on track to graduate with their class. There are multiple sites throughout the San Joaquin County. The main purpose of this program is to provide students with the opportunity to earn a high school diploma while focusing on career preparation. Students are required to do job shadowing or an internship/apprenticeship while earning credits for a high school diploma. Building Futures Academy is an 18-24 year old program with a construction focus along with earning a high school diploma. They are partnered with AmeriCorp and YouthBuild and provide hands-on construction skill development through local construction projects. Come Back Kids is an Adult high school diploma program. The purpose of this program is to provide students 18 years or older who did not graduate from high school with an opportunity to come back to school and earn their high school diploma. There are several sites located throughout San Joaquin County to meet this need in the community. The program operates on a true Independent Study model to serve the adults who are working or facing life challenges that make it difficult to attend school on a daily basis. Charter Elementary, is a small K-6 site that serves students who are homeless or for caregivers who are looking for an alternative setting for their students. The focus of this school is to support the educational and emotional needs of the students as they transition between living situations and a more permanent school setting and provide a learning environment that is focused on student literacy achievement.

Enrollment is currently 1230 students:

School Demographics:
Socioeconomically Disadvantaged 89%
English learners 7.4%

Foster Youth 1.3%
Students With Disabilities 2.2%
Homeless 6.1%
Race/Ethnicity
Total Percentage
African American 14.1%
American Indian 0.6%
Asian 6.7%
Filipino 0.4%
Hispanic 59.6%
Two or More Races 4.4%
Pacific Islander 0.8%
White 9.9%

The one.Charter encourages an integrated approach to instruction and incorporates a wide variety of instructional strategies and learning opportunities including project-based learning activities. Students complete grade-appropriate, standards-based academic courses and Career Technical Education (CTE) courses as they earn high school credits and progress towards earning a high school diploma. In addition, students also engage in lessons and activities to build and strengthen their social and emotional responses. The social-emotional curriculum aligns with MTSS and Positive Behavior Interventions and Support (PBIS). The one.Charter focus is to help accelerate student learning in preparation for college, career, and community involvement. To do this, the one.Charter has several supports in place to meet the needs of students including mental health services, attendance incentive programs, career development activities, outreach and truancy intervention.

The one.Charter is not receiving Equity Multiplier funds.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

The one.Charter educational partners reviewed the 2023 Dashboard, these areas of need were identified for the school and student groups:

One.Charter School received the lowest performance category on the following: (English Learner Progress, Graduation, College/Career Indicator).

These student groups received the lowest performance category:

English Learners (English Learner Progress, College/Career Indicator):

Homeless (Graduation Rate, College/Career Indicator)

Socioeconomically Disadvantaged (Graduation Rate, College/Career Indicator)

African American (Graduation Rate, College/Career Indicator)
Hispanic (Graduation Rate, College/Career Indicator)
White (Graduation Rate, College/Career Indicator)
Asian (College/Career Indicator)

The following Actions will address the above needs:

Action 1.2- English Learner Progress

Action 1.5- College/Career Indicator for all groups listed.

Action 1.9 Graduation Rate for all groups listed.

Additionally from the 2023 Dashboard:

Chronic Absenteeism is still very high at 65.2%.

ELA academic performance for all student groups is very low (230 points below standard) and Math academic performance for all student groups is very low (276.7 points below standard).

The following Actions will address the above needs:

Action 2.5 Chronic Absenteeism

Action 1.3 ELA and Math performance

From local data, these areas of need were identified:

Student growth on our local assessment for reading and math (Exactpath) still show limited growth for students who have taken the assessment twice in a school year. This will be addressed with Action 1.3

The one.Charter needs to continue efforts to support student social-emotional growth. From the CHKS survey, nearly 40% of students were chronically depressed, not satisfied with their lives, nor had hope for their future. This, along with interactions with the students on a regular basis and hearing and seeing their personal struggles, has created a very focused effort on increasing the ability to provide students with mental health support. This area of focus is supported by Action 1.7.

Finally, there is need to continue to increase our Career and Technical Career (CTE) opportunities for students. This was identified as a need from local data and was also an area identified in the WASC self-study. CTE courses will be expanded by the hiring of additional CTE staff, create more opportunities to take CTE classes through our on-line curriculum and building on the partnerships with Worknet, Work Start Yes, and the Greater Valley Conservation Corp. This area of focus is supported by Action 1.5 and 2.2.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

n/a

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

The one.Charter is eligible for comprehensive support and improvement for Low Graduation Rate.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Based on the 2023 California School Dashboard the overall graduation rate was 32.5% for one.Charter. In partnership with the San Joaquin COE community schools, one.Charter collaborated with the San Joaquin County Office of Education's Educational Services Division to develop a CSI Plan that included school-level needs assessment, evidenced-based interventions, and an analysis of resource inequities to support increased student outcomes.

In continuing the work that was started in 2019, one.Charter continues to use the seven-step process for needs assessment that was developed and implemented to conduct a comprehensive needs assessment. Strategic support was provided throughout the process in reviewing, and revising the school

CSI plans by SJCOE staff:

Step 1: Establish a school wide planning team & clarify the vision for reform

Step 2: Create the school profile & identify data sources

Step 3: Analyze the data and current performance level

Step 4: Determine the root causes for performance gaps (utilizing Improvement Science tools and root cause analysis)

Step 5: Identify recommendations to close the gaps (truancy intervention, social/emotional support, MTSS system of support)

Step 6: Identify how the program will monitor the effectiveness of proposed improvement strategies

Step 7: Review the evaluation outcomes and determine next steps for the following school year

Improvement Science methodologies are used to collaboratively address problems of practice that lead to improved outcomes for all students. As part of the LCAP, WASC and CSI Plan development process, school leadership teams including staff, parents, students, and community partners reviewed and discussed various data points including CALPADS reporting and additional data reports from the CA Dashboard, local assessment data in reading and math, attendance rates, suspension rates, and student grades. These data points continue to be reviewed in whole and for specific programs: English learner, special education, foster youth, homeless youth, and socio-economically disadvantaged. Review of the data does not reveal resource inequities.

Based on feedback from educational partners and review of data, evidence-based strategies to increase student engagement and participation were identified as was the continued need to provide therapeutic learning environments for our students. In addition, staff continues to be provided professional learning in methodologies and implementation of trauma-informed practices: Positive Behavior Intervention and Supports (PBIS), Project-based Learning (PBL) and multi-tiered system of supports (MTSS).

Attendance data and survey feedback indicated that student attendance was impacted due to lack of transportation. As a result of this information, an agreement with our Regional Transportation District (RTD) to provide students access to public transportation will be continued even though the specific action for this contract was removed. We will also continue to use CSI resources to provide support for our Outreach Specialists who provide transportation to school (Action 2.5), purchase technology that supports student access to our curriculum (Action 1.9)

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

one.Charter will monitor and evaluate the CSI plan to support student and school improvement by (1) reviewing data regarding Graduation Rates, (2) English Learner progress toward graduation, (3) College/Career Workshop student participation data. The one.Charter program will continue to use the WASC self study process and the Cycle of Continuous Improvement to monitor and evaluate the effectiveness of the interventions selected. This will include the routine practice of monitoring and evaluating data tied to increasing student attendance and graduation rates. Identified data points will be reviewed monthly by leadership teams and staff, and quarterly by WASC committees to evaluate the effectiveness of programs and services implemented in the CSI plan as intended for specific student groups.

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Local Bargaining Units	Met in February with the CTA representative and reviewed LCAP draft goals, action steps, and metrics.
Students	Online survey was administered to students in February-March of 2024 to solicit feedback. School sites hosted LCAP meetings in February-March of 2024 to review draft goals, action steps, and metrics and to obtain feedback.
Parents/Caregivers	Online survey was administered to parents/guardians in February-March of 2024 to solicit feedback. School sites hosted LCAP meetings in February-March of 2024 to review draft goals, action steps, and metrics and to obtain feedback. A final PAC/ELPAC meeting was held in the month of May.
Administrators/Principals	From February-April, the administrative team reviewed CA Healthy Kids Survey, CA School Staff Survey, and LCAP survey responses and developed actionable next steps based on the feedback.
Other School Personnel	Online survey was administered to staff in February-March of 2024 to solicit feedback. School sites hosted LCAP meetings for school site staff, including "other school personnel" in February-March of 2024 to review draft goals, action steps, and metrics and to obtain feedback.
Teachers	Online survey was administered to teachers in February-March of 2024 to solicit feedback. School sites hosted LCAP meetings in February-March of 2024 to review draft goals, action steps, and metrics and to obtain feedback. During PLC meetings, updates on progress towards meeting the WASC identified areas of growth were conducted.

Community Based Organizations/Outside Agencies	Direct engagement in meetings with various community based organizations including Worknet, WorkStartYes, El Concilio, CAPC, Probation, Family Justice Center, and the Women's Center.
one.Charter Board	one.Charter Board meeting in February of 2024 to present the mid-year LCAP report. Additionally, two board meetings in June were held, one meeting to present the new LCAP for a public hearing, and the second meeting to adopt the new LCAP.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Based on the feedback from educational partners through surveys and engagement meetings, the goals were revised in the following manner:

Goal 1- Was previously Goal 2 in the prior three year LCAP. It is now Goal 1 due to the removal of the prior Goal 1 based on this feedback and analysis (Goal 1, Actions 1.1, 1.2 and 1.3 will no longer be continued for the next LCAP cycle). This decision was based on these metrics (the percentage of students completing the portfolio and the number of portfolios reviewed by staff) and it was found that system wide use of the portfolio has been achieved and is sustainable.

After reflection and analysis, there are no significant changes to this planned goal (Previously Goal 2) other than naming it Goal 1. Action #s will be changed from 2.1 to 1.1, etc. Current metrics, desired outcomes or actions will remain the same for the coming year. Due to the success of implementing Edmentum and the creation of the rubrics for the Student Portfolios, there will be new metrics added to this goal and they include: Metric 8 End of Course Final Average Student Scores as a percentage in English 9-12, Business English, and Algebra and Metric 8 Rubric scores for the 3 identified Student Learner Outcomes (SLOs) and overall Portfolio score. Possible Rubric scores for each SLO can range from 1-3 with a total overall all Portfolio score of a range between 3-9. (see Goals and Actions Section Goal 1 for more details)

Goal 2- Was previously Goal 3 in the prior three year LCAP. It is now Goal 2 based on the narrative above in regards to removing the prior Goal 1.

After reflection and analysis, there are no significant changes to the planned goal, or desired outcomes other than changing Goal 3 to Goal 2 and renumbering the metrics and combining some of them together. All actions will start with the number 2 to match the change to Goal 2.

There are changes to a few of the actions including Action 3.7 being incorporated into Action 1.7 (MTSS) under Goal 1 on the new LCAP; Action 3.8 and 3.6 combined into one action 2.5 on the new LCAP, and Action 3.5 (family engagement) being added to Action 2.7 on the new LCAP. Actions 3.1, 3.2, 3.3, and 3.4 will be renamed to 2.1, 2.2, 2.3 and 2.4 on the new LCAP.

The feedback from the educational partners also reinforced the need to maintain and increase CTE opportunities, outreach and truancy intervention systems and staffing, expanding outreach and supports for families and students, socio-emotional supports for students through the clinician and counseling teams, and increasing professional learning in the areas of restorative practices, equity, gang and domestic violence awareness, Social and Emotional Learning (SEL), project-based learning (PBL) and improving PLC practices. (Goal 1)

The feedback from educational partners also informed which local indicators were needed to continue measuring success in reaching the LCAP goals along with the addition of new metrics to measure student academic achievement on English 9-12 and Algebra standards and also capturing Student Portfolio rubric scores to demonstrate student success in regards to the Student Learner Outcomes (SLOs). (Goal 1)

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Increase student learning for all students through challenging academic and CTE programs and consistent instructional practices across all school sites.	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Due to the high percentage of At-Promise students that attend our schools, it is incumbent for our staff to make sure our students are learning and achieving at a high level so they can be competitive in the post-secondary arena as well as the job market. Also, the students that attend our schools are highly transitory and move between our different sites located throughout the county. Due to this movement, it is imperative that we provide consistent instructional practices so when students do move between sites, there is a high level of consistency that will support their on-going academic learning needs. This goal and subsequent actions bring focus to finding out what students know and what they want to do with their futures, what they need to learn to achieve that future, and how we will support that learning. The metrics provide measurement across these actions and will be analyzed to determine student academic achievement and support ongoing curricular and professional growth opportunities.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Professional Development	Ongoing professional learning for all staff focused on developing academic rigor and consistency across all school sites to enhance student learning including all at-promise students including foster youth, low income, and English learners. (metric 5E)	\$400,000.00	Yes
1.2	English Learner Programs	Professional development for staff to create authentic assessment systems and language acquisition programs to support English learners and Long-term English learners. (metrics 4E, 4F)	\$300,000.00	Yes
1.3	Reading and Math Interventions	Common reading and mathematics intervention programs to support student learning including all at-promise students including foster youth, low income, English learners and Long-term English learners. (metric 5E)	\$120,000.00	Yes
1.4	Common Curriculum	Common instructional materials and curriculum that meet current California academic standards and follow instructional frameworks to enhance student learning. (metrics 2B, 8)	\$300,000.00	No
1.5	CTE Staff and Programs	Provide Career Technical Education staff, programs and common College and Career Readiness curriculum to ensure that students, including foster youth, low income, English learners and Long-term English learners are College and Career ready. (metric 4C)	\$935,000.00	Yes
1.6	Enrichment Instructors	Enrichment instructors will provide classroom instruction for students in Visual and Performing Arts and STEAM to support student achievement,	\$200,000.00	Yes

		including all at-promise students including foster youth, low income, English learners and Long-term English learners. (metrics 4C, 5E)		
1.7	MTSS	A multi-tiered systems of support which includes staff that will develop a consistent framework of support to nurture student academic, behavior, and social-emotional needs. This includes foster youth, low income, English learners and Long-term English learners. (metric 5E)	\$2,400,000.00	Yes
1.8	Safe Learning Environment and Student Learning	Core services provided to support student education and learning in a safe, clean, and well-maintained learning environment. (metrics 1A, 1B, 1C, 2A, 8 End of Course, 8 Portfolio)	\$10,590,000.00	No
1.9	Technology	A variety of technological learning platforms to enhance the learning options of all students so they can earn or recover credits for graduation. (metrics 4A, 2B, 5E, 7C) (This is also the CSI action)	\$160,000.00	No
1.10	Students with Disabilities	Training for teachers and staff to ensure students with disabilities access the core curriculum. (metric 7C)	\$0.00	No
1.11	Additional Staff	Hire additional staff (Art Therapist, Campus Communication Technicians, Career Developers) and maintain current staffing using the additional concentration grant funding to support learning for all at-promise students including foster youth, low income, English learners and Long-term English learners. (metric 5E)	\$1,575,000.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Cultivate positive relationships between schools, students, parents & the community.	Broad Goal

State Priorities addressed by this goal.

- Priority 3: Parental Involvement (Engagement)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

The strong majority of our students are considered At-Promis and therefore a primary focus is placed on building positive relationships between students, families, parents and our schools. This partnering with local community service agencies and strong relationships between students and schools, we believe, will lead to higher attendance rates and thus enhanced learning for our students. Some actions within this goal are designed to promote, build and support meaningful relationships among students, school site personnel, families and community organizations. Stakeholder feedback and review of survey data will provide evidence of the impact of the engagement efforts and community partnerships by monitoring and evaluating school connectedness, safety, and collaborative relationships through local survey data. Other actions within this goal are designed to promote student attendance and decrease truancy. We will monitor and evaluate the actions by collecting and reviewing specific data, including attendance, drop out, graduation and suspension rates, as well as solicit stakeholder feedback throughout the year that will provided evidence of the impact of the actions on student engagement, attendance and truancy.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Communication	Support outreach efforts to all educational partners using a range of communication tools and strategies to elicit feedback on improving services to students and families. (metrics 3A, 6C)	\$50,000.00	No
2.2	Community Partners	Build and strengthen relationships with neighboring counties and community partners and agencies including San Joaquin County Probation Department, San Joaquin Behavioral Services, and Child Abuse Prevention Council to enhance services provided to at-risk students including foster youth, low income, and English learners. (metric 5E)	\$340,000.00	Yes
2.3	Parent Involvement	Increase parent and community participation in the Parent Advisory (PAC) and English Learner Advisory (ELPAC) committees with an emphasis on having representation for foster youth, low income, English learners. (metrics 3A, 3C)	\$10,000.00	No
2.4	Quests	Provide Quest (field trips) and Team Building activities for all students including foster youth, low income, English learners, and reclassified English learners to foster positive relationships among students, staff, and the community. (metric 5A)	\$20,000.00	No
2.5	Truancy Intervention	Maintain a truancy intervention team that includes school staff and community agencies who will monitor individual student attendance. They will provide incentives, transportation, and other supports to improve attendance for all including all at-risk students including foster youth, low income, and English learners. (metric 5E)	\$1,775,000.00	Yes

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	<p>Action: Professional Development</p> <p>Need: (CA Dashboard 2023) Lowest performance level for graduation rate.</p>	This will focus efforts on increasing consistent staff use of effective instructional strategies designed to engage students in the classroom setting and an independent study model. This is needed to address the low performance level for graduation rates. The action is being provided on an LEA-wide basis to maximize the impact in increasing overall graduation rates for all students.	5E

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: LEA-wide</p>		
<p>1.3</p>	<p>Action: Reading and Math Interventions</p> <p>Need: (CA Dashboard 2023) Lowest performance level for graduation rate.</p> <p>Scope: LEA-wide</p>	<p>Action 1.3 focuses staff efforts on using Exactpath individual learner plans effectively and also using scaffolding supports that are embedded in Edmentum custom built courses for ELA and Algebra courses. This is needed to address the low performance level for graduation rates. The action is being provided on an LEA-wide basis to maximize the impact in increasing overall graduation rates for all students.</p>	<p>5E</p>
<p>1.5</p>	<p>Action: CTE Staff and Programs</p> <p>Need: No students completed the CA Dashboard CTE Pathway and A-G Pathway/CTE Pathway.</p> <p>Scope: LEA-wide</p>	<p>By creating additional opportunities for students to take CTE and A-G courses the goal is to have students complete these pathways and be more prepared for college and careers. This is needed to address the lowest performance on career indicator for the one.Charter school. The action is being provided on an LEA-wide basis to maximize the impact in increasing overall rates of college and career preparedness for all students.</p>	<p>4C</p>
<p>1.6</p>	<p>Action: Enrichment Instructors</p> <p>Need: The ensure students have access to a broad course of study. Since the majority of students in the program are focused on earning credits, there is a heavy focus on "core" academics and the art programs are often overlooked.</p>	<p>This action is focused on hiring additional artists in residence along with enrichment instructors (dance, culinary, music) to provide a broader course of study for students. This is needed to address the low performance level for graduation rates and career indicator for the one.Charter school. This is needed to address the low performance level for graduation rates. The action is being provided on an LEA-wide basis to</p>	<p>4C, 5E</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>Scope: LEA-wide</p>	<p>maximize the impact in increasing overall graduation rates for all students.</p>	
<p>1.7</p>	<p>Action: MTSS</p> <p>Need: Nearly 90% of one.Charter student population is identified as low income and face significant socio-emotional and academic challenges.</p> <p>Scope: LEA-wide</p>	<p>Action 1.7 addresses the social-emotional and academic needs by providing multiple supports to students including academic support, counseling, career development, mental health support, food security, and wellness checks. The goal is to provide wrap around services to ensure our students are actively engaged in their learning and thus graduate and pursue post-secondary options. This is needed to address the low performance level for graduation rates. The action is being provided on an LEA-wide basis to maximize the impact in increasing overall graduation rates for all students.</p>	<p>5E</p>
<p>1.11</p>	<p>Action: Additional Staff</p> <p>Need: (CA Dashboard 2023) Lowest performance level on graduation rates.</p> <p>Scope: LEA-wide</p>	<p>By providing additional staff (including an Art Therapy teacher, Campus Communication Technicians and Career Developers) that will support the student learning process from a wholistic (wrap-around) approach. This is needed to address the low performance level for graduation rates. The action is being provided on an LEA-wide basis to maximize the impact in increasing overall graduation rates for all students.</p>	<p>5E</p>
<p>2.2</p>	<p>Action: Community Partners</p> <p>Need: (CA Dashboard 2023) Lowest performance level for graduation rate.</p> <p>Scope:</p>	<p>By building relationships/partnerships with local community based organizations and San Joaquin County Probation Department, San Joaquin Behavioral Services, and Child Abuse Prevention Council, students will receive the needed supports outside of the school setting to meet their basic living needs met. By supporting these needs, students can then focus more on their academic skill development and thus graduate. This is</p>	<p>5E</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	LEA-wide	needed to address the low performance level for graduation rates. The action is being provided on an LEA-wide basis to maximize the impact in increasing overall graduation rates for all students.	
2.5	<p>Action: Truancy Intervention</p> <p>Need: (CA Dashboard 2023) Lowest performance level for graduation rate and the current chronic absenteeism rate of 65% and dropout rate of 24%.</p> <p>Scope: LEA-wide</p>	<p>This action will address this need by providing a truancy intervention monitoring system and staff to track attendance rates of all students and then provide direct supports to encourage and increase attendance for those who are missing school. These supports include home visits, transportation and connecting students to local community based resources. This is needed to address the low performance level for graduation rates. The action is being provided on an LEA-wide basis to maximize the impact in increasing overall graduation rates for all students.</p>	5E

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
1.2	<p>Action: English Learner Programs</p> <p>Need: Only 47% of English learners in the LEA made progress towards English language proficiency in 2022-23.</p> <p>Scope: Limited to Unduplicated Student Group(s)</p>	<p>Based on the identified needs as indicated on the CA Dashboard for LEA, professional development to improve EL instructional strategies is needed for all the schools in the LEA as well as improved systems to monitor, assess and reclassify EL students. The action is being provided to increase the number of students making progress towards language proficiency.</p>	4E and 4F

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

n/a

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

The additional concentration grant funding will be used to hire the following additional staff (1 Art Therapist, 2 Campus Communication Technicians, and 2 Career Developers) that will support the student learning process from a wholistic (wrap-around service) approach that includes art therapy workshops, community outreach services, and post-secondary career development and placement. The plan is by providing these services, students will have a healthier mental outlook, be connected to needed resources in the community, and develop post-graduation career plans that show students the connection between their identified career path and current academic courses. (Action 1.11)

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

School districts and COEs: *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).

- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in EC sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of EC sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

Metric

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain

accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 . Leave blank until then.	Enter information in this box when completing the LCAP for 2026–27 . Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25 or when adding a new metric.	Enter information in this box when completing the LCAP for 2025–26 and 2026–27 . Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
 - The reasons for the ineffectiveness, and
 - How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.

- For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
- As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
- These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8).

Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If “Yes” is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as

a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

- This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**

- This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

- **7. Total Estimated Actual Expenditures for Contributing Actions**

- This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**

- This amount is the total of the Planned Percentage of Improved Services column.

- **8. Total Estimated Actual Percentage of Improved Services (%)**

- This amount is the total of the Estimated Actual Percentage of Improved Services column.

- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**

- This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
 - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
 - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
November 2023
